To Whom It May Concern;

In August, 2006, my colleague and I met with Vince Giambalvo to discuss College Bound Selection Service (CBSS). We found Vince to be very knowledgeable about the services that CBSS offered, and instantly felt comfortable working with him.

We signed a contract with CBSS in October, 2006, and we have been pleased with the results we've seen as well as with the service we've received ever since. Vince is always very professional and willing to help with any questions or requests that I have. He is definitely an asset to your organization.

Sincerely,
